SKILLS

- **Languages:** Java (Strongest), C (Proficient), Python, JavaScript, ARM
- **Web Technologies:** HTML, XML, JSON, CSS
- **Embedded Systems & Hardware:** Verilog, Logic Circuits, Microcontrollers, Datasheets
- **Languages:** English (Fluent), French (Beginner)

PROFILE

Dedicated Software Engineering student seeking a summer 2025 internship to gain experience developing software within a professional environment. Passionate about problem-solving, Artificial Intelligence, and contributing to innovative tech solutions.

EDUCATION

IOWA STATE UNIVERSITY

- **Bachelor's Degree**
- **Master's Degree**
- Software Engineering
- Artificial Intelligence
- Graduation: Fall 2026
- Graduation: Fall 2027

PROJECTS

GRATFUL GIG - PERSONAL PROJECT

(DEC, 2024-PRESENT)

- Designed and developed a social media platform where users share daily gratitude posts.
- Problem solved and tested to develop quality code.
- Built the front-end using Android Studio (Java/XML) and the back-end using IntelliJ (Java).
- Integrated MySQL for database management and utilized Postman for API testing.
- Managed version control with Git, ensuring clean and efficient code access.

EMBEDDED SYSTEMS - FINAL PROJECT

(NOV, 2024-DEC, 2024)

- Led a team of 6 in designing and programming a microcontroller-driven robot capable of autonomous course navigation.
- Optimized team efficiency by delegating roles, scheduling meetings, and maintaining clear communication.
- Integrated multiple sensors (e.g., adc, ping, and servo) along with a python GUI and developed robust control algorithms to ensure precise movement and destination accuracy.

S/W DEVELOPMENT - FITNESS TRACKER (AUG, 2024-DEC, 2024)

- Developed the front-end of a fitness tracking application using Java and XML, focusing on responsive UI/UX design.
- Integrated CI/CD pipelines for automated testing and deployment, improving development efficiency.
- Established real-time data synchronization using WebSockets and handled server interactions via HTTP CRUD requests.

WORK EXPERIENCE

C'EST LE CREPE FOOD TRAILER

(AUG, 2022-PRESENT)

- Co-led a team of employees while launching a new business
- Ensured high-quality food preparation and exceptional customer service.
- Managed customer orders efficiently, contributing to smooth business operations.
